### EDUCATION

# University of North Carolina at Charlotte (UNCC)

Charlotte, NC, USA

Master of Science - Computer Science; GPA: 3.75/4.0

August 2024 - Present

Courses: Visual Analytics, Artificial Intelligence, Software System Design and Implementation, Database Systems

#### SKILLS SUMMARY

**Programming:** Python, C, C++

Web Design: HTML, CSS, JavaScript, WordPress Front-End Development: React.js, Bootstrap, REST APIs

**Back-End Development:** Node.js, Python, Django, Flask, SQL, MongoDB

UI/UX: Figma, Photoshop

Visualization: Power BI, Tableau, Data Storytelling, Dashboard Design

Data Analytics: Data Mining · Large-scale Data Analysis Tools: Git, GitHub, VS Code, Google Analytics

Soft Skills: Team Collaboration, Creativity, Communication, Attention to Detail

#### EXPERIENCE

#### University of North Carolina at Charlotte

Charlotte, NC, USA

Jan 2025 - Present

Graduate Teaching Assistant - Visual Analytics • Mentored 50+ students on dashboard structure and data storytelling with Tableau and Power BI.

- Supported professor in refining design content, including layout alignment, visual hierarchy, and color themes.
- Held office hours to guide students on dashboard usability, typography balance, and visual presentation.
- Assisted with grading and analytics while enhancing course flow and user-centered design materials.

#### Arth Design Build Private Limited

Hyderabad, India

Software Developer Intern – Data Dashboards & Analytics

July 2023 - July 2024

- o Optimized data workflows to transform Revit 3D model data into Power BI, improving decision-making by 40%.
- o Built 5 Revit plugins using JavaScript and Node.js to automate data flow between ACC, VCAD, and Power BI.
- o Developed automated pipelines extracting Primavera P6 data into Power BI, enhancing visualization precision.
- Created 4 interactive Power BI dashboards with SQL-based models, empowering 60+ stakeholders with real-time insights.
- Used Git for version control while collaborating on 4 major projects with a 6-member BI and development team.

Remote

 $Software\ Developer\ Intern\ -\ Workflow\ Automation$ 

May 2023 - Aug 2023

- o Improved MongoDB CRUD operations with MERN stack, ensuring faster and more efficient data retrieval.
- Built and optimized 3 responsive React. is applications, increasing user engagement.
- Streamlined Agile workflows, reducing project timelines by 20% through better team collaboration.
- Created detailed workflow and API documentation, cutting developer onboarding time by 50%.

# Projects

# • Appointment Management System:

- Built a robust and scalable web application using Django for efficient doctor-patient appointment management.
- Enhanced patient scheduling and booking workflows with a streamlined user flow, improving overall user experience.
- Integrated real-time notifications and alerts to boost patient adherence and appointment reliability.
- Applied Agile methodologies and sprint planning to enhance team collaboration and project communication.

Technologies Used: Django, Bootstrap, HTML, CSS, SQL

## Household Services Platform:

- Engineered an intuitive and responsive application using the MERN stack, enhancing user engagement and satisfaction.
- Designed an efficient booking system to streamline service requests and improve overall platform usability.
- Collaborated with a dynamic cross-functional team across SDLC stages to ensure timely, high-quality feature delivery, incorporating continuous user feedback.

Technologies Used: MERN Stack (MongoDB, Express.js, React.js, Node.js), RESTful APIs, JSON

# CERTIFICATIONS

- Programming, DSA using Python (NPTEL) Django Essential Training (LinkedIn Learning)
- Project Management Fundamentals (IBM) Introduction to Networks (CISCO)

#### Achievements and Service

• Volunteer at Probasi of Charlotte, assisting in cultural events and community support

Charlotte, NC, USA

• Part-Time Food Associate at Social 704, UNC Charlotte

Charlotte, NC, USA Jaipur, RJ, India

• Spearheaded a team of 5 at Yuvtarang Food Stall, serving 1000+ attendees

• Finalist in National-Level Hackathon, held at Rajasthan-March 2023

Vizaq, AP, India
